**RESOLUTION 2016-06  
Drought Disaster Resolution**

**WHEREAS,** Perkins County is suffering from severe drought conditions due to significantly low moisture, late frost conditions, extreme heat, strong winds, and wildland fire conditions that have increased to an extreme condition, and

**WHEREAS,** The Board of Perkins County Commissioners resolve that said conditions constitute a disaster of such severity and magnitude that effective response is beyond the capabilities of the County, or even the State of South Dakota, and that Federal assistance is necessary, and there are few emergency plans available to alleviate the damage and economic stress resulting from these drought conditions; and

**WHEREAS,** Perkins County does not have the financial resources to respond to this disaster, and

**WHEREAS,** The Board of Perkins County Commissioners is aware of the sparse pastures and lack of forage crops for the feeding of livestock and wildlife, and because of this situation, conditions have arisen that may necessitate the reduction or dispersal of livestock herds and depletion of wildlife, and

**WHEREAS,** stock dams, creeks and other water sources are drying up and becoming undrinkable for livestock, and are therefore unable to provide the necessary water for livestock, wildlife and firefighting resources, and

**WHEREAS,** The Board of County Commissioners of Perkins County is aware that fall and spring planted agricultural crops are incurring drought damage,

**WHEREAS,** numerous other acres of South Dakota and surrounding states are also experiencing drought conditions which has threatened the availability of alternate sources of hay and forage,

**WHEREAS,** the farming, livestock, and wildlife industry is important to Perkins County, the State of South Dakota, and the nation's economy and should be preserved,

**NOW, THEREFORE, BE IT RESOLVED,** that Perkins County requests the SD Drought Task Force to consider these issues and declare a drought emergency that could make funding and resources available for farming and livestock programs as well as provide emergency resources for wildland fire protection that accompany this drought situation, and

**BE IT FURTHER RESOLVED**, that Perkins County Board of Commissioners declares an emergency and a disaster and requests that the Governor of the State of South Dakota also declare an emergency and disaster for Perkins County, and

**BE IT FURTHER RESOLVED**, that the Board of Commissioner of Perkins County respectfully petition the Governor of the State of South Dakota and the President of the United States to provide with all dispatch any remedies and state and/or federal assistance available for this type of emergency.
